

1. **Apologies for Absence:** Charlie Seligman, Clare Albert, Richard Waters
In attendance: Bob Hough, Nixie Graham, Jim Marsh

2. Appeal Ref: APP/H1705/W/14/3001603: Land at Bullington Cross, Construction of 4 wind turbines up to 126.5m high as part of a 14 turbine wind farm:
 - The previous windfarm plan responses were summarised - 3 email objection letters had been sent and the previous chairman Caroline Jolly had spoken against the wind farm at the main decision meeting.
 - EDF have not submitted any further materials beyond the original plan documents to support their appeal.
 - The clerk had received feedback from Susanna Church that Popham were still extremely anxious about the impact of the windfarm on flight safety. Their Chief Flying Instructor had spoken to East Midlands Airport which had been referenced by Osprey (independent flying consultants employed by Basingstoke and Deane BC) in the planning meeting as having no safety issues with their neighbouring wind farm. Popham has contacted the airport since and they confirmed that the safety issues are minimised as in certain wind conditions the run way has to be shut down. Susanna also expected that the MOD will be represented at the appeal as they are concerned about safety of their helicopters.
 - The results of last week's poll of residents, to re-gauge opinion following the previous poll in Nov 2012, were discussed. 69% (18) of respondents had responded that they were against the windfarm and 31% (8) were for. The residents had received notice of the survey via: email/hardcopy L&F News&Views newsletter, the same newsletter posted on Facebook and then a specific post placed on Facebook.
 - Nixie had spoken to Keep Hampshire Green who have recommended simply reinforcing the previous objection.
 - Given that the results of the latest poll re-validated the previous objection position, a resolution was tabled that the PC reinforce its previous objections. All voted in favour.
 - **Action:** Bob to write letter incorporating our poll results and previous objections.

Date of next Full PC meeting: 10th March 2015 at 7.30pm at Lady Rose Hall
